FISHING CHARTERS

HEAVY TACKLE GIANT BLACK MARLIN FISHING

We offer extended live-aboard heavy tackle fishing charters between September and mid December annually targeting giant black marlin up to 1000lb+ in size. These charters are typically between 3 – 7 days in length and depart out of Port Douglas, Cooktown and Lizard Island depending on the time of season.

ITINERARY

All of our charters are customised to your requirements however our heavy tackle trips follow a general 'program' to ensure we are effectively fishing and maximising your opportunities.

Light tackle bait fishing in the mornings for mackerel, tuna and other pelagic species in and around the reefs for then we head outside the reef edge with the heavy tackle and target black marlin from approx. 11.00AM – 6.00PM (whilst on live-aboard trips)

Our overnight anchorage is behind the protection of the outer reef for dinner and a comfortable night's rest whilst catching up on the day's events.

There may be some opportunity for popper fishing & jigging for GT's and Dogtooth tuna in the mornings providing we have sufficient bait supplies.

Snorkelling and swimming on the reef is also available most mornings whilst we're anchored up.
